Special Applications for the Most Efficient Use

Free Standing

Provide more personalized service and help your client choose the product that best suits their needs. The self service counter mounted kiosk is perfect for over-the-counter customer service. This kiosk guarantees efficient and fast service and increases productivity in service.

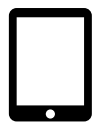

Wall Mount

Maximize available space and provide direct interaction. Make your customer experience more visual, enjoyable and functional with the self-service wallmount kiosk. Developed for users autonomy, these kiosks provide differentiation and flexibility in the spaces.

Pendant Mount

Create a self-service kiosk station and reduce queues. Start normalizing the processes of attendance. This kiosk allows a clear and dynamic visualization of the information, making the space more modern and at the same time, more functional.
