One family.
Multiple ways to deploy.

A configurable totem platform for professional spaces

The O Model Totem family brings together Full HD and 4K display options, Android or Windows players, connected I/O and project-specific color, logo and branding choices.

Flexible display formats

Select the display format and resolution that fit the project, with Full HD and 4K UHD options across the family.

Android or Windows player

Select Android for streamlined kiosk signage, or Windows 10/11 Pro with configurable Intel Core processors, RAM and SSD storage.

Connectivity for operations

Wi-Fi, Ethernet, Bluetooth, HDMI output, USB and 3.5 mm audio/microphone support connected workflows; exact interfaces depend on the player.

Brand-ready enclosure

Color, logo and branding options adapt the O Model Totem to the project while the shared family design stays consistent.

Digital advertising **Wayfinding** **Information** **Corporate content**

unisign / Display Technology

A complete family, clearly configured.
